NEW BOOKS

A Short History of Belgium. By LÉON VAN DER ESSEN, Professor of History in the University of Louvain. \$1.50, postpaid \$1.60. In this new and enlarged edition the author tells in an interesting way of the formation, struggles, and triumphs of the little kingdom; presents additional material on the reign of Leopold II; and describes the heroic nation's part in the Great War.

A Field and Laboratory Guide in Physical Nature-Study. By ELLIOT R. DOWNING, Associate Professor of Natural Science in the School of Education, the University of Chicago. Loose-leaf, 110 pages of text, interleaved, paper covers; \$1.00, postpaid \$1.10. Tells how to make toys that work by air, heat, electricity, light, and other physical agencies. The child learns the principles without effort while he is absorbed in making the toys. Also tells about the common minerals and rocks and the stars that are the wonder of every child.

The Geography of the Ozark Highland of Missouri. By CARL ORTWIN SAUER, the University of Michigan. \$3.00, postpaid \$3.20. The purpose of such a study is twofold: to furnish an adequate explanation of the conditions of life in a given area, and to contribute proved statements which will aid in working out fundamental principles. A valuable feature of the volume is the forty-four figures in the text and twenty-six plates.

A Manual of Style (Revised Edition). By the STAFF OF THE UNIVERSITY OF CHICAGO PRESS. \$1.50, postpaid \$1.65. An invaluable handbook for writers, editors, teachers, librarians, ministers, lawyers, printers, publishers, proofreaders—for all who need guidance on matters of propriety in style.

Current Economic Problems (Revised Edition). Edited by WALTON H. HAMILTON, Professor of Economic Institutions, Amherst College. \$3.50, postpaid \$3.75. A selection of readings from the widest range of sources. The revision presents new material made available as a result of the war, and the new point of view brought about by the war in many lines of thinking on economic subjects.

Problems of Fertilization. By FRANK R. LILLIE, University of Chicago. \$1.75, postpaid \$1.90. As the problem of fertilization deals with the union of male and female sex elements, which forms the beginning of each individual's life-history, it has important bearings upon the problems of heredity. It also has close relations to several other fundamental biological problems.

The Revelation of John. Is the Book of Revelation a Mystery to You? By SHIRLEY J. CASE, Professor of Early Church History and New Testament, the University of Chicago. \$2.00, postpaid \$2.15. This is a popular presentation of the subject and not a technical commentary. The author tells why and when the book was written.

The Spread of Christianity in the Modern World. By EDWARD CALDWELL MOORE, Harvard University. \$2.00, postpaid \$2.15. The book gives a survey of the expansion of Christianity since the beginning of the modern era, about 1757, and depicts the movement against the background of general history.

A Short History of Belgium

By Léon Van der Essen
of the University of Louvain

A Fascinating Story

The author tells in an interesting way of the formation, struggles, and triumphs of the little kingdom.

A *new* and *enlarged* edition presents additional material on the reign of Leopold II and describes

The Heroic Nation's Part in the Great War

Although this is not a war book, it shows why the Belgian nation preferred honor in the place of dishonor and struggle for freedom in place of ease.

No one can understand nor appreciate the Belgium of today unless he knows something of its prolonged struggle for unity and independence.
